# TYPES OF SHADES

## ZIP SCREEN

Zip screen shades offer a sleek, modern solution for precise light control and privacy with their innovative zip-guided system.

## LOUVERED SHADES

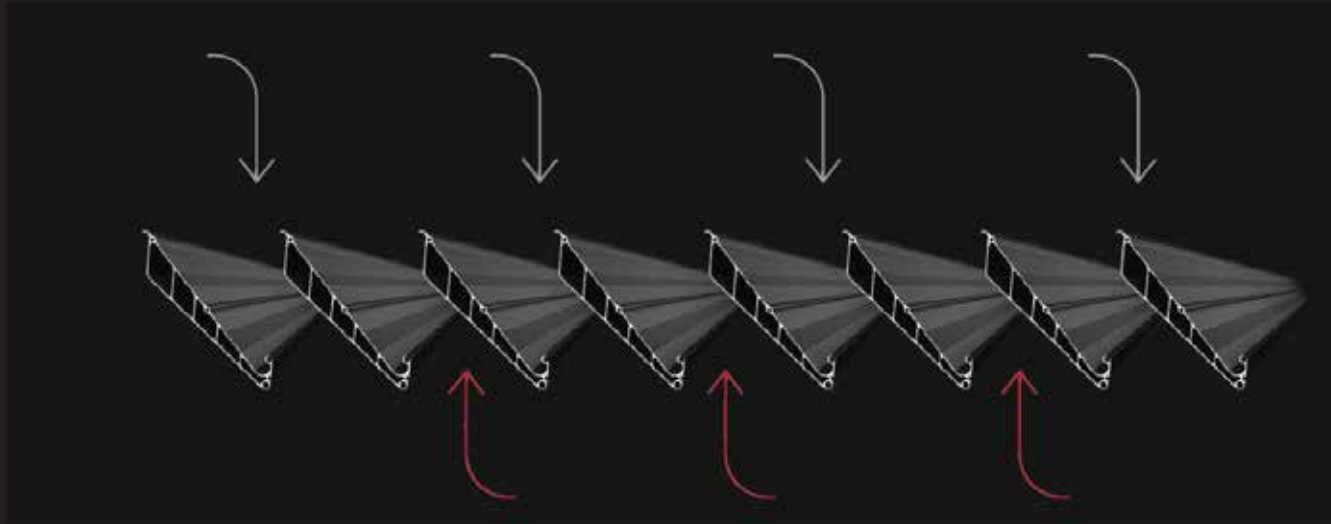

Louvered side shades are versatile and stylish outdoor elements designed to provide adjustable privacy and shade. The adjustable louvers allow for customizable airflow and sunlight control, enhancing the comfort and aesthetics of any outdoor space.

## SLIDING DOORS

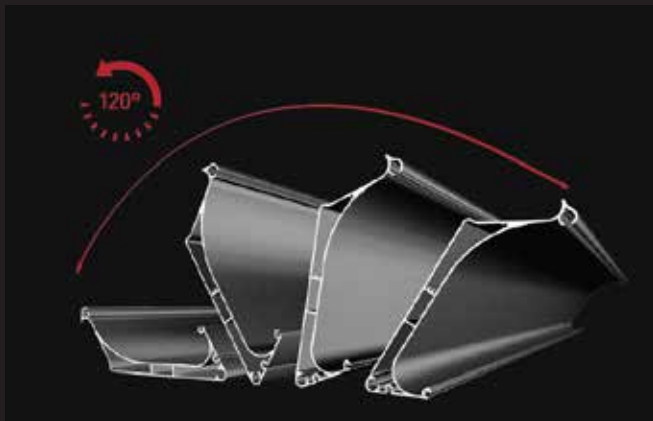

A sliding glass door is a contemporary and space-efficient entryway or exit featuring large glass panels that slide horizontally, seamlessly connecting indoor and outdoor spaces while allowing abundant natural light into the room.

## Remote Controlled Ventilation

With just a simple touch, the remote control enables you to refresh the air and bring a burst of freshness into the room.

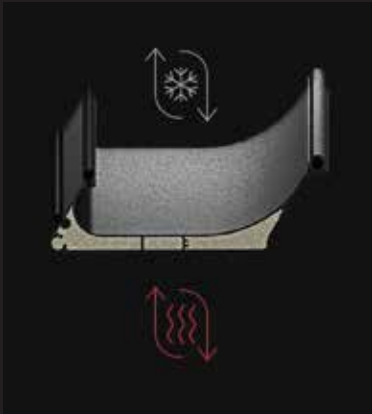

## End-Point-Centered Rotation

The distinctive rotating technology incorporated in this system offers numerous benefits, including enhanced integrity, stability, and sealing. This is achieved through the use of an end-point-centered operating structure and a high-pressure power system.

## Air Tunnels

Air tunnels facilitate effective air circulation, leading to a reduction in temperature.

## Comprehensive Drainage System

Specially crafted aluminum panels direct water flow through integrated gutters on each side.

# Fabric Shade Colour Options

Select from a range of shade options, including fabric and glass, to control light and create the perfect atmosphere.

# Draughtsman Services, Technical Documentation, and Installation

Benefit from our comprehensive service package, including professional draughtsman assistance, thorough technical documentation, and expert installation. We ensure your Polspas Pergola is designed to perfection, well-documented for maintenance, and seamlessly installed for your ultimate outdoor enjoyment.
