HOT TUB

Let's Create Memories...

As my soul wanders throughout the day
And my soulmate trying hard to make out my day
Though my feet want me to go around but fail to move
And my body lying on the couch thinking of a making a
memory but disapprove
Yet I fail to please myself and my partner
Push myself to take a decision or still try harder
Looking to play football but still I am in a meeting hall
Let my soul find a peace and my serotonin can increase
Oh, Got the surprise of POLSPAS Hot tub at my place
Now I have created my own space
No more my soul wanders around looking for peace
Now I throw a lot of parties...
As my partner and friends enjoys with me
CREATING MEMORIES WAS SO EASY

HAPPY HOTTUBING...

Polspas has identified the 'four moods' that change the way we live today. They are the basis of all our collections and ensure that you experience within a hot tub is truly 'whole'.

For when your body needs enhanced recovery.

For friends and family time

Whether your outdoor or indoor space is generous, compact or somewhere in between, there's a Polspas hot tub to fit. From a lawn fringed patio to a roof top terrace, you can be sure that our ingeniously designed and easy to install range will be right at home.

With no need for outdoor plumbing, your hot tub can be conveniently installed into an area that best suits the way you live.

For a little quiet time.

For that impact in your garden, on your terrace or balcony.

KNOW US

POLSPAS is a polish producer of outdoor & indoor spas and pool. We are a manufacturer and also an OEM & ODM service provider. We are a firm believer of High -standard and top-quality services and Customer satisfaction are of paramount importance to us. Through the years of research and development combined with latest technology, we have become expert in hottubs and pools industry providing the exclusive experiences to our customers.

We devote ourselves to create the best products for customers who appreciate and pursue a healthy, relaxed and balanced lifestyle. We have exporting our hot tub spas to many countries, such as America, France, Middle-East including UAE, Kuwait, Oman, Qatar, Saudi Arabia, America, India, Europe including Germany, Italy, the Netherlands, Belgium, Sweden, Australia and many more countries. We have several workshops that hold advanced production lines for the production of quality spas. We strictly follow the 5Sconcepts and ISO9001 international standard to establish the quality management system. Our production team is lead by a group of well -experienced engineers and experts, who ensure our professionalism in product design, quality control and R&D. Our spas are made to comply with international electrical safety standards. All of our spas are approved under the CE, CB, KC, SAA and IEC, ISO9001 standards. We take great pride in our OEM & ODM ability and experience, and hope to establish cooperation relationship with people all over the world. Believe that our excellent product quality, competitive price and warm service will bring greatest benefits to our customers.

POLSPAS
DEVELOPMENT

ACRYLIC SHELL

All our shells are come from Lucite acrylic, one of the best in leading spa shells. Lucite acrylic maintains excellent resistance to weathering, infrared/ultraviolet radiation, staining and scratching. The exceptional quality of the high gloss surface enhances its appearance and serviceability. Lucite acrylic is available with built-in Microban®. Microban® is an antimicrobial that is molded in the acrylic to protect you from bacteria, odors and stains. Microban® antimicrobial protection is built-in the Lucite Acrylic during manufacturing to provide continuous antimicrobial product protection, giving you peace of mind that your spa is cleaner and safer for your family. Lucite Acrylic Shell Spa Colors Available Colors shown on this page are scans of actual product, but are for identification only. Additional cost and time frame will apply. Prices and specifications are subject to change without.

CABINET COLOURS

Cabinet Spa cabinet is another place where functionality comes into play. All our spas come equipped with a maintenance-free synthetic cabinet. Our superior synthetic cabinets look somewhat like real wood from a distance with the imitation wood-grain pattern, and always look brand-new. They virtually eliminate splitting, cracking, fading and warping and is the same material found in similar plastic products such as fences, gazebos and decks. They are durable, water resistant and UV-resistant, providing your spa with exquisite beauty for years to come. And they can be maintained simply with a damp cloth and mild detergent. Our Cabinets are a perfect way of enhancing the ambience.

Ash light Grey

Cement Grey

Coffee

Charcoal Black

THERMO SPA COVERS

Spa Cover UV-resistant vinyl cover contains high-density foam for maximum heat retention. The key features of our spa cover are as follows: High Density 100% Virgin Insulating Foam Core: Specially formulated for superior insulation and strength. Superior Steam Sealer: Provide a tight seal at the edge of the hinge, preventing heat and steam loss. Spa Handles: Sturdy handles for easy handling. Available with two or four handles. Child Resistant Lock Down Straps: 4 durable lock straps with keys. Exceeds ASTM requirements for safety and security purposes

SPA STEP

Our steps are extremely durable and virtually maintenance-free. Moreover, our steps are the perfect complement to our spas because they are made from the same material used in our spas' cabinets. The addition of this elegant step with our spa will certainly enhance the appearance of the overall spa package.

DEVELOPMENT

Finding a spa with efficient and effective insulation is to your benefit, because it can cut down on monthly operating costs. Good insulation will trap in the heat from your spa and create an effective barrier between the cold outdoors and the warmth in your spa. Your spa will not have to work as hard to maintain a warm water soaking temperature, therefore lowering the operating costs. Now, we can provide you with a spa with insulation that works for you. You will maximize energy efficiency and minimize your cost-of-use with our insulation system.

FIBER GLASS BOTTOM

Unlike our competitors, we use the thick fiberglass bottom as a standard feature in ALL our spas. Our customers of course get the benefit from such a stronger, long-lasting spa with this bottom. Our fiberglass bottom is formed around the bottom of the cabinetry, and serves the purposes of added structural integrity, increased insulation from the elements, and protection from rodents and insects entering/tampering with the spa interior.

POLSPAS MASSAGE JETS

AIR JETS / BLOWER

An optional air jet system can produce air bubbles from the fittings throughout the spa to provide a very gentle soft-tissue massage to release tensions in the muscles.

STAINLESS STEEL JETS:

Normal Stainless Steel Although this will save you money, the quality of massage, flexibility of feeling, and quality of construction far offsets the cost. The time tested proven performance of our jet system assures you reliable jetting that you will enjoy for years to come.

MASSAGE JETS

Our jet system features a variety of jets allowing you to massage different muscles with different water pressure. We can deliver the healing flow of water from the jets to specific spots on the body. These spots, known as pressure points, can lessen or eliminate pain if triggered properly. Relaxing in polspa is the ultimate in effective, natural relief for your tired body and frayed nerves. Thousands of air bubbles combine with warm water to caress the body parts that suffer the brunt of the day. Specifically selected jets are positioned at strategic body points offering healing therapy to shoulders, neck, back, legs; right down to the feet!

POLSPAS HYDROMASSAGE JETS EROGONOMICS

At times, you just want to soak without any jets and relax quietly in hot tub. Occasionally, you may wish for a deep, active massage that can loosen tight muscles or speed up the recovery of sore muscles that have been overworked. POLSPAS Jets Ergonomics focuses from neck to foot muscles making sure your time in hot tub leaves your mind and Soul relaxed for long hours. The elegant designs of stainless-steel jets in spa adds up to the luxury of your home with giving the positive and energy vibes all around the year.

POLSPAS HOTTUBS promotes healthy and Luxurious lifestyle

ACU-MASSAGE LOUNGE - A

Acu-Massage Jets are specifically designed to relieve the tensions in the extreme tired muscles by focusing on the Acupressure points of the body like Neck, shoulder, full back, including lower back, thighs, knee, calves and foot. The adjustable nozzles help in setting the pressure of the massage required by an individual or full family hence giving the best possible relaxation to the mind and soul. It is also best suited for Professionals and Athletes.

ULTRABACKMASSAGE" LOUNGE - B

Specially designed jets above-the-waterline benefit the neck and shoulders while a contoured pillow rests your head. You can vary the speed of the jets to focus on your sore spots. Your lumbar region is relieved of tension and pain with a unique jet configuration. As your sole bear all the weight and are constantly moving, are stimulated and revived by sole soothing jet.

DEEP TISSUE MASSAGE" LOUNGE - C

An intense deep-tissue massage of your back, shoulders, thighs, knees, and calves relieves all your tension and leaves you feeling fresh and rejuvenated, select six different jet sequences and three different speeds are provided so you can just sit back and relax comfortably.

PERIMETER LED LIGHTING

This feature allows the spa owner to retain a favorite color operation mode. There are 13 modes. And the color operation modes are available:

Bottom(Pedestal Base) We use the thick ABS and fiberglass bottom as a standard feature in our spas. Our customers of course get the benefit from such a stronger, longlasting spa with this bottom. Our fiberglass bottom is formed around the bottom of the cabinetry, and serves the purposes of added structural integrity, increased insulation from the elements, and protection from rodents and insects entering/tampering with the spa interior

CUSTOMER SERVICE AND ON-GOING COMMITMENT

Showroom

When you have an idea of the hot tub model that will suit your needs, you can see the real thing on your nearest showroom. Our experienced sales force will then take you through the purchase process and in many instances give you're the opportunity to try out hot tubs in demonstration areas.

Delivery

Once you have selected the hot tub you can arrange for it to be delivered ...this part of the process involves us scoping out the fitting area, the location of your home and the logistics of bringing the tub to you.

Fitting

After the electrical work & level base have been completed, Polspa will send their expert fitter to connect the hot tub to its designated power source. They will then fill the tub to the right level and then demonstrate the correct way to use it.

Aftercare

With the hot tub installed and being used at your leisure. it's good to know that Polspa is always on hand to deal with any questions, offer tips and recommend the best ways to keep your unit running smoothly.

Warranty

All our hot tubs carry a standard 2 year warranty to provide you with superb peace of mind. the 2 year warranty is for EU countries only. For other markets please check with local retailer.
